NEW PRODUCTS DEBUTING AT 2011 NEOCON® WORLD'S TRADE FAIR AT THE MERCHANDISE MART

CHICAGO (June 13, 2011) – The 43rd annual NeoCon® World's Trade Fair, North America's largest commercial interior design show and conference, returns to The Merchandise Mart in Chicago, Monday, June 13 through Wednesday, June 15, 2011. NeoCon showcases the latest trends and innovative products for the office, health care, hospitality, residential retail and governmental environments, to more than 40,000 attendees each year.

During NeoCon, more than 700 exhibitors from around the globe will showcase cutting-edge products, setting the precedent for the contract furnishings industry. Designer products in 12 categories will premiere at NeoCon including:

CASEGOODS AND OFFICE SYSTEMS:

Alera

SedinaAG features modern silver metalwork and a contemporary design create a myriad of desking configurations to suit any business requirement.

Futrus- Furniture Systems for Infection Control

This year, Futrus is launching a revolutionary line of solid surface infection control furniture and casework for health care environments. Now, for the first time, there is a furniture solution targeted to address this problem that will save costs and even lives.

Interzum

The **BeCode evo** is an electronic keyless locking system for furniture and ideally suited for use in combination with conventional locking systems. The BeCode evo works without keys and transponders.

JSI, a Jasper Group Brand

Auvy was designed to coordinate with JSI's entire casegoods offering while bringing high function and design to modern conferencing. The table introduces the concept of enhancing existing furniture with all of the features and aesthetics of this multi-functional table.

-over-

Kwalu

Kwalu's long-beach casegoods design collection's dual-toned look is delightfully light and is a good match for any décor. The side frames and front overlay are reminiscent of ocean waves while the leg design provides a stylish, dimensional look that allows for easy cleaning.

Modular Milwork – IOPC

Novus More Space Systems feature a wide range of modular products which systematically optimize the use of space in all three dimensions, creating efficient and ergonomic work environments that improve concentrated productivity and workflow.

OFS

OFS proudly introduces **Sebree Training Table** with features such as flip and nest, locking casters and full electrical and data giving designers real solutions, beautifully.

The Hon Company

The Hon Company introduces **Voi**, a collection of layered worksurfaces and practical storage components designed to meet the needs of any user in any type of workplace application. Not only does Voi achieve the right mix of functionality and style, it creates a unified, cohesive aesthetic for an entire workplace community.

Three H

Three H introduces **Create Office Platform™** - one simple, intelligent platform on which four practical and insightful applications are built; Club, Studio, Forum and Park. Applications are defined by the work activity and the unifying platform creates a seamless integration of the work environment.

DECORATIVE ACCESSORIES AND ARTWORK:

2-90 Sign Systems

2/90 Enhanced is a collection of architectural backers with exclusive designs and shapes to enhance 2/90 Modular and Arc Sign Systems.

Currey & Company

With a definite Art Deco styling, the **Amrah Mirror** is made of milk white art glass and black grout. Hung in multiples, this mirror can make a dramatic statement.

Lalique

- Lalique introduces a fresh take on Marc Lalique's previously conceived idea for a crystal table by introducing the re-interpreted rectangular **Cactus Table**.
- Lalique also introduces an extra large version of the iconic vase, **Bacchantes**, making it the perfect accent for a grand foyer or home with extra high ceilings.

Skattered Moments

Skattered Moments introduces **Skax**, which transforms simple photos into stunning wall art by enlarging and pixelating an image, then splitting the image across several frames.

-over-

Takeform

Nest magazine racks will provide a whole new look for waiting areas with their attractive, space-saving design. Nest is part of the whole new Essentials Line.

Terrazzo & Marble Supply

Armourcoat Sculptural is a range of seamless sculptural wall surface designs. Consisting of a variety of patterns, they are constructed from a series of pre-cast panels that are bound to the substrate.

FLOOR COVERINGS:

Anji Mountain Bamboo Chairmat & Rug Co

- Anji Mountain Bamboo Chairmat & Rug Co introduces **Silky Shag Rug**, which is softer and silkier than traditional shag rugs made from wool or synthetic fibers and has a uniquely luxuriant look and feel due to custom specified blended yarn (50% rayon made from bamboo, 50% cotton).
- The new **Mumbai Jute & Wool Rug** boasts a chunky, deep pile weave made from jute and wool.

Bentley Prince Street

- Introducing **Illuminated Linen**, capturing the feel of vintage fabric which reflects women's boucle suits from the 1940's fashion era. With a non-directional pattern, Illuminated Linen brings depth and unexpected nodes of texture and color to visually represent the cottony essence of cool, linen fabric.
- **Clodagh's Natural State** combines form and function and works beautifully as an area rug option or acoustical wall covering; and as a broadloom floorcovering for corporate, government, hospitality, residential, retail, as well as airline and cruise line market segments.
- **Flashing Lights** boasts a bamboo-like aesthetic with glimmering yarn detail for a glamorous effect. Organic patterning creates movement that complements its show-stopping structure, making it a stunning solution for corporate, hospitality and retail applications.
- **Hollywood Sequel** is comprised of charming color ways perfect for complementing high-level corporate spaces such as law offices and government buildings, featuring yarn with hints of colorful shimmer for extra depth and texture.
- **Illuminaire** is a high luster accent yarn that adds depth and variation to the linearity of this carpet, creating a subtle sparkle and richness. Playing the matte against the shimmer creates dimensionality from any perspective.
- **Oscar Worthy** will transform any corporate, hospitality or retail environment into a striking backdrop motivated by The Arts. With a contemporary color line, Oscar Worthy embraces a random structure and artfully eroded appearance. It delivers both momentum and cohesion to every space, fulfilling total design.

- **So Vintage** offers a modern color line that reflects the Southern California skyline, where gorgeous orange and gold tones splendidly intertwine with more subtle, cool tones.
- over-

Ceramiche Atlas Concorde

- As integrated into projects, **Advance** creates refined design spaces, superb hospitality venues ensuring excellent technical features and tremendous versatility thanks to three available surface finishes (matt, brushed and textured) as well as top safety, resistance and functionality performance.
- **Ambition**, designed to cover, with a touch of class, precious bathrooms and sought-after hospitality venues where luxury, fashion and design live in harmony and balance. The glossy surface and the elegant colors diffuse a soft radiance, enhanced by the effects of the delicate decors.
- **Style**, a porcelain stoneware collection which takes its inspiration from five different marbles, selected for their unique and timeless style. The surface aesthetics and technical perfection privilege a sought-after attention for detail, at the same time enhancing the pureness of colors, the deepness of surfaces and the naturalness of the veining.

EcoInteriors Corp.

Nuclis is a revolution to resilient floor coverings. Nuclis is floating floor that is 100% waterproof, engineered with a 30mil protective wear layer, fiber glass in lay, and a sound barrier.

Lea North America

Slimtech is the new creation that completes the project of Surfaces by Lea Ceramiche. Thanks to the innovative porcelain compaction technology that revolutionized the traditional production process, Slimtech is produced in full slabs (3x1 meter) without using any mold.

Parterre Flooring

Parterre's latest luxury vinyl flooring product, **Infrastructure**, delivers a unique linear and textural design that offers a striking accent for floors in any commercial environment – especially corporate spaces.

Patcraft

Awash with performance and rippling with renewal, **New Ground** brings design zen to commercial environments. Craft a space with circles, perpetuate blooms, align the spirit and weave in texture for spaces that tread new ground.

Propex

Propex introduces their new product, **Isis**. A revolutionary backing that creates new possibilities in modular tile with unmatched pattern clarity and at least 85% recycled PET content.

FLOORING AND LAMINATES:

ABET Laminati

- The new **ABET Wood Collection** of high pressure laminates combines the look and feel of true wood veneer with technically enhanced durability. The 22 vibrant patterns are available in natural and reconstituted wood. All 22 veneers are stain, scratch and dent resistant.

-over-

- **Stratificato** is a decorative high pressure, self-supporting, compact laminate used primarily for countertops, backsplashes, furniture, gym lockers, toilet partitions or any laminate application requiring extra strength, durability and design.

Centiva

Centiva is releasing a new smart phone application this year. **The First Step** application was designed to give designers and architects a tool to aid in the first steps of the product selection and specification process. The user can look up products, order samples and e-mail the information easily, anywhere.

Crossville, Inc.

Bluestone Porcelain Stone Tile by Crossville features soft earthen tones, enhanced by fossil-like impressions and the subtle opalescence of embedded shells. Designed for both commercial and residential installations, Bluestone contains a minimum of 20% SCS-certified recycled content.

InterfaceFLOR

InterfaceFLOR's **Red Carpet Collection** adds a touch of luxury and glamour without compromising on being the ultimate in sustainability. Ideal for corporate interiors, it includes three sophisticated patterns: Reduce is linear, uncluttered and coolly modern; Redesign's sheared construction contributes definition and depth, dimension and class; Redeliver's carved motif and sheared construction intensify color, producing a rich, organic look.

Johnsonite

- Johnsonite's **Azterra** vinyl enhanced tile (VET) was designed to color coordinate with the company's new Color Essence tiles, as well as with Johnsonite finishing borders, transitions and other finishing accessories. Azterra combines the look of granite particles with soft, flowing marble in 14 exciting color choices.
- **Color Essence VET** from **The Azrock Collection** by Johnsonite offers 51 colors with six coordinating slip resistant choices with unique tone-on-tone particle visuals. Beautiful, durable and low-maintenance, Color Essence tiles can fit into an array of design schemes for a multitude of applications.
- Containing 2.5% cork by weight, Johnsonite's **ECO-NATURALS™ CorkTones™** combines aesthetics and sustainability to deliver complete design freedom.
- Engineered for greater sustainability in rubber flooring, **ECO-NATURALS™ Eco-Shell™** with Cork, combines function with aesthetics, safety with efficiency and short-term cost with lifetime return.
- **Masquerade** is a unique Millwork finishing border with the look of exotic wood and expensive stone. Masquerade features an advanced imaging process that can replicate

any pattern, print, color or image creating as accurate a match as technologically possible.

Terrazzo & Marble Supply

- Their new product, **Difiniti Quartz**, is a line of engineered stone that comes in both slabs and tile. There are 18 colors to choose from and all contain a percentage of recycled content.

-over-

- Terrazzo & Marble Supply also introduce **The Great Lakes Quarry Collection**. The Great Lakes Quarry Collection consists of limestone tile in various shades of neutral colors quarried throughout the Midwest and available in an array of formats and finishes.

USFContract

Cork Décor from Natural Cork® takes traditional cork flooring and adds extreme durability to create a collection of unique and eclectic eco-friendly flooring visuals designed to perform in the most demanding commercial applications.

Furniture:

Actiu Berbegal Y Formas, S.A.

Their new product, **Arkitek**, responds to an architectural vision of the workplace environment. With this system, **Actiu** reinforces the aim of providing unique solutions, as well as top quality.

Allsteel

Gather is a series of collaborative office designs unlike any other conventional contract furnishings. The collection includes seating, tables, storage and accessories, but, with more than half the series incorporating dual functions.

Arcadia

- **Memento Task** includes a distinctive, slender profile and a refreshingly comfortable knit suspension back available in a range of solid hues and multiple color combinations. It also incorporates convenient, ergonomic-focused features such as back height adjustability, width adjustable arms and multifunctional chair controls to ensure long-term seated comfort.
- Designed by David Ritch and Mark Saffell of 5D Studio, **Rendezvous** is a study in minimalism with simple, modern forms providing a broad range of flexibility and style. Readily accommodating small multi-use spaces, large multi-media presentation rooms and everything in between, the Rendezvous collection is abundantly functional and creates a welcoming environment for gatherings of every kind.

Atdec Distribution

Levitate is a radically innovative ergonomic mounting solution for flat-screen displays that allows even large-sized desktop monitors to be tilted, positioned and re-positioned in seconds, without cumbersome user actions.

BioFit Engineered Products

A curvaceous alternative for educational, institutional and hospitality environments, **Afton** delivers design diversity with its unique S-shaped top, which better accommodates today's meeting and event centers.

Cape Contract Furniture

- **The Albert Series** from Cape Furniture is a new series of Italian designed chairs, bar stools and lounge seating that offers both comfort and style.

-over-

- **The Jamaica Series** from Cape Contract furniture is a new series of chairs, bar stools, tables, swing /hammock seating and lounge chairs. Constructed of 304 grade stainless steel, this series can be used for both indoors or outdoors applications.

CHERRYMAN

VERDE Lounge by Cherryman offers excellent style and function at an affordable price to fit a variety of applications and design direction.

Community, a Jasper Group Brand

Finn by Community pairs simple clean lines with elements of nature to bring in the outdoors and open interior spaces. Constructed with the quality of its Scandinavian ancestors, Finn is built to exceed BIFMA standards to live for many generations of proud furniture owners.

ConSet America

Electric height adjustable desks series in three widths each with a 275 lb lifting capacity. Height range is 22" – 48" with a sturdy and sleek contemporary design with built-in wire management.

Dauphin

- **Aspetta**, Dauphin's new casual and hip lounge chair, features a semi-circular, recessed seat available on glides or a swivel base. Smartly slender and compact, this chair is perfect for reception areas and waiting rooms.
- **The Konstrux Nesting Tables** are the perfect solution for meeting your training, conference, and workspace needs. They incorporate a streamlined flip-top design along with a fashionable frame structure that can easily be set-up or stored by using the single-handed, one-touch quick lock button.

Davis

- With its fascinating architectural form, **Ekko** ushers a new era of style into conference rooms and offices everywhere. Clean, crisp lines are the hallmark of its trio of angular metal base designs. Ekko's power covers match the surface material in color, grain, and texture, marking a giant leap forward in electrification design.
- **Kontour** modular seating, with coordinating ottomans and end tables, can be arranged in limitless configurations to provide comfortable, functional seating options in rooms of all sizes. Rectilinear and curvilinear shapes, zigzag backrests, and optional privacy enclosures create strong visual interest while enhancing a designer's ability to define spaces and control traffic flow in large public areas.
- The **PLC Lounge Chair's** generous proportions and curved embrace ensure a comfortable and relaxing experience. Mortise and tenon joints make the solid oak frame appear to

have been carved from a single, solid piece of wood. A coordinating low occasional table completes this dignified, durable set.

Enviro Framing Systems International

Enviro Outdoor Seating – Table & Two Benches, is a completely recyclable product manufactured from recyclable aluminum and recycled synthetic wood. This product requires no maintenance and looks good year in and year out.

-over-

Ergotron, Inc.

Transform any surface into a personalized standing desk. **Ergotron's WorkFit-D Sit-Stand Desk** offers 20" (51 cm) light-touch height adjustability, optional ergonomic keyboard, and plenty of space for a laptop or full computing system. The WorkFit-D helps make computing comfortable and productive for prolonged periods with ability to change from a sitting to a standing position whenever wanted throughout the day.

Harvest Link International Pte Ltd

No need for additional cover such as upholstery. The **Prima 3D Veneer Chair** is a high quality material by import and can also appear directly. It is fashionable and three-dimensional without any defects by a professional hot embossing forming technique.

HBF

- Introducing the **Linea Bench Series**, a sophisticated collection of modular modern benches designed to support seating in public spaces and conference venues in need of additional seating and storage. Designed by Mario Ruiz of Barcelona, Spain.
- Designed by Todd Bracher and created to enhance social connection, nurture collaboration and respect the desire for personal space, **Nest** is a comprehensive working lounge collection comprised of lounge and side chairs and mobile side and multiple height occasional tables.

ISE, Inc.

ISE's **Line-of-Sight Desks** offer innovative functionality that allow the flat screen monitor to raise or lower beneath the work surface with a simple push of a button. Increase work space, minimize cable clutter and clear your sightline with ISE's Line-of-Sight Desk.

ITOKI DESIGN

In the new product, **Hida**, a special process has been developed to compress the Japanese cedar by 1/3, the otherwise soft and weak cedar into sustainable strong boards. Itoki Design has partnered with Hida to imagine new and thoughtful products from this ancient, yet reinvigorated material.

JANUS et Cie

- The bright colors and fun design of **Bikini** adds excitement to any environment. Bikini is ergonomically designed with scoop seat and back elements in an armchair that conveniently stacks to six, side chair, tablet, stationary and swivel barstool making the collection as carefree as a day at the beach.

- **Capsule** is hand-woven of JANUS fiber with exacting attention to detail in an eye-catching and tactile weave that recalls basketry techniques that date back many centuries yet remain intriguing today.
- Offered in Bamboo Green, Natural Bronze and Limestone in an array of furnishing elements and stacks to three, **Cremona** is a perfect example of the beauty of simplicity.
- **The Street** armchair creates interest with a die-cast seat back with decorative circular perforations and the polished look of anodized aluminum. Street is perfectly suited to be in a conference room or lecture hall stacking to 6 for easy storage.

-over-

Jofco

Introducing **Collective Motion**. A collaborative enhancement to Collective Motion, freestanding and sectional lounge units along with tables and consoles address technology-based presentations and teaming. Optional screens create a sense of enclosure in open spaces.

JSI, a Jasper Group Brand

Moda, by JSI, came from the desire for a visually simplistic guest chair. Add mixed materials and clean linear architectural details, and the result is a design with a beautifully-sculpted wood back and a full range of coordinating seating.

Kelly International Corp.

- Introducing the three-tier **Electrical Table**. With Kelly's patented mechanism, the gear won't strip off or jump. High Range: 645mm - 1305mm Speed: 30mm/second.
- Kelly International Corp's new **Aluminum CPU Holder for Slim CPU** is slidable and 360° rotated.

KI

- The new **Tufted Kurv Bench** by KI offers an elegant minimalist solution to seating, with its versatility and clean architectural style. Its sophistication is created by curves and smooth lines. Kurv is ideal for waiting areas, lobbies, and lounge areas.
- Designed for higher education and K-12 environments based on extensive student research, KI's new classroom furniture solution is uniquely versatile and mobile. Whether for individual study, group projects, or traditional classrooms, this seat and surface combination personalizes the learning experience.
- **The Soltice Collection** is KI's most comprehensive lounge collection. Featuring a new arm design with sweeping angles and modern style, Soltice further enhances the flexibility and versatility of interior furnishings with distinct sophistication and a simple, natural, human touch.
- **The Torsion Air**, designed by Giancarlo Piretti, is a fresh interpretation of classic Torsion and combines a breathable mesh that conforms to your back as well as a patented torsion flex mechanism.

Knú Healthcare

- Designed with ease of cleaning and infection control in mind, with a hospitality rather than healthcare aesthetic, **Knu Overbed Tables** are built to last from high-recycled content materials in our carbon neutral Michigan facility.

- **The Knu Overbed Table with Storage** comes with storage cubbies for patient use, the shelves are easily removed for cleaning and disinfecting.
- **The Knu Overbed Table with Shelves** comes with two shelves that are easily removable for cleaning.

LEDA

- This exciting new group features Zebrano veneers with complementing paint trim colors of silver, black and pink - yes pink - as well as a warm Amaretto and a deep Mahogany wood finish, with most pieces allowing for a mixing of woods and finish selections. **Fresh** breathes new life to meeting rooms with unique table shapes and configurations.

-over-

- Attractive audio/video case good unit featuring an automated, silent TV lift mechanism which can accommodate most 50" flat panel TV's. The TV turns on and off on automatically as it rises and goes down plus the built-in power features a USB port. The **Park Plaza 21309 TV Lift** is constructed of cherry veneer with a solid wood frame and available in several finishes.
- LEDA proudly introduces the contemporary **Lounge Wall Unit** consisting of functional items suitable for offices, boardrooms and common areas. The units are available in a variety of styles and finishes so they can complement any surrounding.

Leland International

- **Hifi** is a collection of lounge furniture, benches and tables that offer an extensive range of size and choice of finishes for corporate lobby and collaborative workspaces or perhaps even your home.
- The **Ebb Bench Seating System** is comprised of free standing straight sections, offered in 4, 6, 8 and 10 foot lengths and hub units that are available in a variety of spoke configurations. Ebb straight components are available trimmed in a white oak veneer exterior surface with white melamine interior.

Nienkämper

- Designed by Mouna and Silvio Russo, the simple, clean lines of the **Arabesque** conference tables have an architectural strength and symmetry which highlight the intricate patterns. Choose glass conference table tops for a unique conference room statement. Leather wrapped or wood veneer tops offer a distinct yet impressive presence.
- Designed for use in tandem, these computer-compatible tables and towers can be easily reconfigured, expanded, and set at just the right height for people, whatever their age and level of mobility. Top finishes range from laminate with self edging or high-impact plastic edging to veneer work surfaces with solid wood edging. Designed by Mark Muller.

OFIFRAN

OFIFRAN is proud to announce their new product, **Prima Sinfonia**. Prima Sinfonia suggests the tranquil harmony of the piano's arcs and the architectures which have evolved until they are clear and pure.

OFM, Inc.

- The **Indoor/Outdoor Net Series** is comprised of four single seating models in four base styles, three different length beam seating and two sizes of glass top tables. The seats are

made of steel mesh specially treated for the prevention of rust and fading. All of Net is Greenguard® Certified for Schools and Children.

- The **Uno Lounge Chair** has a contemporary design perfect for reception rooms, lounge areas, offices and anywhere else that a comfortable, stylish accent is required. Built with a sturdy round steel tube frame and fire-retardant seat foam it is accented by eight distinctive color options of fabric and PVC free polyurethane.

-over-

OW Lee Co.

- **The Palazzo Collection**, O.W. Lee's new introduction for 2011, brings a sense of classic elegance to the most fashionable outdoor spaces. Using Grecian style as its inspiration, the Palazzo Collection offers a transitional look while maintaining the strength and durability of hand-crafted wrought iron.
- OW Lee introduces the **Trazo** tabletop for the 2011 season, made by American artisans. This beautiful and durable concrete and stone aggregate top offers a unique look unmatched by any other outdoor tabletop surface. Trazo is made using a 20-step process blending old world craftsmanship, modern tooling, and cutting edge science.

Ratana Home & Floral

- **Ratana's Pasto Collection** is a modular grouping that enables you to configure seating to your own preference. Charcoal Black 30mm wicker is intricately woven over a sturdy frame in a bubble woven pattern. Combined with the sophisticated high back style, this is the ultimate in design and style.
- **Ratana's Lynn Valley Adjustable Lounger** is made from hand-woven Antique Brown color resin over an aluminum frame. Its exquisite curve design combines style and functionality providing comfort all day long. Its stackable features allow more room for storage.
- **Ratana's Zuni Sling Stacking** chair is well decorated with Durawood armrest. Seat and back panels are fully woven 4x4 sling and replaceable. Light weight aluminum frame or durable stainless steel frame is available for the best selection. Two color options are available: Black and White.
- **Ratana's Vernon Bar Chair** is woven over a sturdy stainless steel frame using outdoor resin wicker. Enjoy the look of modern wicker with minimal maintenance and high durability.
- **Ratana's Montana Bar Chair** is combined with sleek designs resulting in functional pieces. Immensely durable, woven resin over a sturdy stainless steel frame provides seating for years to come.
- **Ratana's Bench Set** is made from hand woven Antique Brown color resin over an aluminum frame. The Bench top is strengthened with aluminum mesh support. This collection is completely weatherproof and built to ensure years of open air enjoyment.

Right Angle Products / K&A Manufacturing

Introducing the **Flip Table** from Right Angle Products / K&A Manufacturing. These are easy to operate tables and provide for compact storage.

SIDIZ, Inc.

M10 is an economical stacking frame chair with innovative structural solution that allows synchronized-tilt movement offered only in high-class task chairs. M10 are appropriate for various public spaces that might accommodate a great number of people for a long time, such as lecture rooms.

-over-

Sparkeology

- **Cal**, a sturdy workhorse of a conference table is all about flexibility. Full knee clearance invites people to gather around all four sides, and a unique cable management system provides easy access to floor power at any location along the center spine. It's strong, easy to assemble, and available with a decorative cover to hide and protect wandering cords.
- **Duane** makes teaming up with technology simple. This trestle-style table gangs together easily to support multiple computer stations or gaming centers, but can also be used as a freestanding table or along a wall. The large trough accommodates bulky bundles of cords and power strips used for multiple terminals, while the split table top provides more convenient access to cords than traditional grommets.

Stiles Machinery, Inc.

Homag laserTec is the new production technique set to revolutionize the office furniture manufacturing industry. This technique uses a laser beam to melt the surface to be glued, which is then pressed directly onto the workpiece. The result: edges of the very highest quality.

Stylex

- **Foundation Healthcare** is a line of Greenguard certified healthcare seating that is simple, durable, and comfortable. The collection includes a love seat, guest chair and bariatric chair, which have all been tested to accommodate 1,000 pounds.
- The **SAVA ThinPad** offers users an extra luxurious seat and back for those demanding a more cushioned experience. This new upholstery style works particularly well with the Edelman Leathers that Stylex has recently in-graded just for SAVA. Edelman's All Grain, Dream Cow and Royal Hide collections offer a rich tailored look that the ThinPad option shows off to great advantage.

Tecno Display

Introducing Tecno Display's new trophy **Showcase**. Pre-assembled and made with tempered glass, this showcase is shown in cherry laminate with a brushed silver anodized aluminum frame. It is also equipped with six 50-watt halogen top lights, locking sliding doors, and hidden wheels.

The Hon Company

The **Preside Conference Collection** a comprehensive new series of workplace furnishings consciously developed with people in mind—their need in collaborative settings to connect not only to each other but also to today's technology.

TMC Furniture, Inc.

Glamorous and moody, the **PRISMS ImPrinted™** digital image creates a rich look for any interior.

TUUCI

TUUCI's **Plantation MAX Cantilever** provides 200 square feet of uninterrupted shade and ambiance. Featuring a combination of TUUCI's "Aluma-TEAK" hardwood finish and Armor Wall Aluminum construction, the parasol is guaranteed to endure for generations.

-over-

Vitra, Inc.

- Seven different bases allowing for numerous possibilities for functional and aesthetic configuration make **HAL** a universal chair to be used in private homes as well as in public and semi-public spaces, including restaurants, stores, offices, professional practices and studios. HAL has a coated base so it can also be used outdoors.
- **Kuubo's** platform supports team work & conferencing and the use of modern communication technology. Lockable built-in storage boxes enable a quick change between the two working scenarios. Temporary touch-down workers can secure personal equipment when leaving the area without requiring extra storage.

LIGHTING:

Beaufurn

Mid-century modern design comes to life through sleek curves and chrome frames in the new **Waitz** collection from Beaufurn—a collection of four seating elements and two tables. The bar, arm, task and lounge chairs feature convex trait padding and a concave geometric seat with trim, tubular chrome legs and a sleigh base. A cocktail and side table round-out the collection.

Currey & Company

- This pierced metal pendant is created by hand on a base of treated iron which is then electroplated with copper and nickel and then finished with a thick coat of lacquer to ensure it will not oxidize. **The Cairo Pendant** has blue glass beads individually glued inside some of the pierced holes so that the light gives off a soft blue glimmer.
- Hand-applied finish, natural material and high quality fabric is used to create this decorative and functional wall sconce. **The Cornwall Wall Sconce** meets ADA requirements and takes a pin-mounted 24w CFL bulb which offers significant improvement in energy consumption but still gives the equivalent light of a 60w incandescent bulb.

Ebanista

An 18th century style hand-forged wrought iron chandelier adorned with hand-selected crystal pendant drops. A central hand polished rock crystal shaft holds 6 light candles on graceful s-curve branches. Available in a variety of sizes.

io Lighting

- **LiLi**, a 2' x 2' luminaire designed to replace fluorescent general lighting systems in standard ceilings. This low profile energy efficient light fixture delivers 2.5 times the life of

fluorescent lighting systems. Lili's organic reflector form delivers a soft broad distribution of light with no glare whatsoever.

- **Balance Beam** is the next generation ADA compliant illuminated grab bar. It employs Touch Sensing Technology which activates the LED light inside the grab bar by sensing contact of the patient or caregiver's hand. Patient falls in hospital rooms cause physical injuries, adverse psychological effects, longer hospital stays, litigation and fatalities.
- io's new bollards series, **koi**, house a variety of different tried and true io luminaires. The Plane steplight, Line .75, and Line 1.5 are all integrated into elegant wood bollards designed to deliver code required illumination levels for all types of pedestrian walkway.

-over-

Lamp Works

Lamp Works is proud to introduce their new product, **Lighting**. It is handmade lighting with all natural materials.

Mighty Bright

LUX is a line of smart, versatile and energy-efficient LED task lights, for use in homes, hotels, office, and industry. LUX LED Task Lights exemplify Mighty Bright's commitment to provide lighting solutions that are innovative, functional, eco-friendly, and embody a simple aesthetic elegance.

LOUNGE SEATING:

Allermuir

- Introducing, **Confer**, a compact, stacking mono-shell chair design that takes conference and banqueting seating to a new level in terms of style, function and comfort.
- This adaptable design adds a desirable, compact, square armchair with accompanying two-seat sofa and coffee table to the collection. **Fifty Series** is an ideal range for numerous soft seating and meeting environments; including reception areas, coffee bars, corporate lounges and breakout spaces.
- **Haven** redefines the modular upholstery system with sofas, stools, tables and screens. The high back provides excellent personal privacy, a haven within a busy world, a place for personal contemplation or interaction amongst a team.
- This elegant low back design incorporates sofas, chaises, armchair and complementary deep edge coffee tables. **Octo** fulfills the visual, functional and comfort needs of both corporate and leisure reception environments as well as lounges, hotel foyers, retail interiors and soft meeting use.
- **Freeflow**, with its organic and curving features and distinctive bull-nosed upholstery styling is a unique, striking and distinctive bench system offering a contract to more formal modular bench systems.
- With their new product, **Insight**, Allermuir has set out to redefine the genre of multi-purpose seating. A family of products was developed that responds to the holistic requirements of multi-purpose seating, ranging from a high density stacking chair through to a light work chair.

Allermuir USA

- With its clean, contemporary pedigree, the new **Fifty Series** by Allermuir makes a bold statement in virtually any environment the discerning designer specifies. The Fifty seating series features a highly adaptable design for a multitude of applications, thanks to its

compact, square armchair with coordinating two-seat sofa and elegantly matched coffee tables.

- New from Allermuir USA is the **Freeflow Series**, which is characterized by its organic and curving features and distinctive bull-nosed styling. This is a striking and distinctive bench system, one that offers a refreshing contrast to more formal and predictable modular bench systems.
 - Allermuir USA's new product, **HAVEN**, is a modular upholstery system which includes
- over-

sofas, stools, tables and screens, HAVEN provides a comfortable retreat and productive work environment. Designed with contemporary finesse by Mark Gabbertas, the HAVEN soft seating group works on two levels, offering optimal functionality and distinctive appeal.

- The unique and dramatic **Octo** group is characterized by an elegant, low back design and includes sofas, chaises, an armchair, along with complimentary deep-edge coffee tables.

Arcadia

- Taking a sculptural approach to lounge seating, **Aloft** rises above the others to provide an awe-inspiring experience. An upholstered body, encased in elegant wood, is supported by a minimalist steel frame to create a virtual suspension effect that defies gravity and captures the imagination.
- **Haven** is a comprehensive offering of seating and table products designed specifically with healthcare in mind. Guest and lounge models feature a passive flex back, clean-out portals as well as a range of replaceable components—from arm caps and complete arm frames to seat and back upholstery covers—to ensure lasting beauty and timeless satisfaction.

Beaufurn

The **Camille** lounge seating system uses only four skus – three seating pieces and one ottoman – to produce modern seating for two or twenty. The environmentally responsible Camille is made in the United States with FSC wood and soy-based foam.

Carolina

Commons™ is a seating and tables system designed to support the common space, the architecture around it and the people who move through these important spaces. With bold structural architecture, Commons expresses what might otherwise go unsaid by traditional seating.

Cherryman

VERDE is a contemporary casegoods collection featuring our new open-pore Woodtouch Bamboo laminate for a 'just like real wood' appearance at an affordable price. Greenguard certified with high design detail VERDE is a premier solution for the office, conference & reception areas.

Dauphin

Aiko has a sleek five-star base, auto-synchron mechanism that adjusts to your body weight, a sliding seat, seat angle adjustment, and a choice of three back options: a breathable mesh back, a visually appealing poly membrane back, or an upholstered pad on poly membrane back.

Davis

- **PLC** combines sleek, modern design with solid oak construction and old world detail to create this timely and timeless chair. Its cozy, rounded features beckon with promises of comfort and warmth. Mortise and tenon joints make the exquisite frame appear to have been carved from a single, solid piece of wood.
- The smooth, organic shape of **Soft**, with its sculptured edges and continuous lines, makes

-over-
this lounge chair a showpiece of modern design. Its spacious injection molded foam seat offers a remarkably comfortable and relaxing experience.

Design Within Reach

- This is a new and exclusive series of carpets with Verner Panton motifs. The motif for the new **Panton carpets** comes from the 'Grande' textile from 1975, which consists of geometric circular patterns.
- An exclusive re-launch of the classic **System 123 Lounge Chair** in three types of fabrics and two types of leathers. Unique, simple, functional, ICONIC shape that Verner Panton wanted to "grow out of the floor."
- The round **Panton table** was designed in 1970 and was originally planned as a dining room table to

match the Panton Chair. The table remained a prototype, but now, after more than 40 years, it has finally been put into production by Verpan, which is pleased to present a 'genuine' Panton table. The round tabletop is elegantly mounted on a cone (in steel) and has a round, flat steel foot, making the table a perfect match for the System 1-2-3 dining room chairs.

Grand Rapids Chair Company

Nadia is a versatile collection of one-, two- and three-seat tandem units, bariatric chairs, settees and benches, plus inline and corner tables, offering unlimited combinations. The plating-grade steel frame supports a variety of users and uses.

Gunlocke

The new **Cjij™ Lounge Collection** from Gunlocke provides balanced proportions with a refreshing simplicity of design. It's clean, timeless style provides just the right solution to blend with nearly any design. The result is a lounge collection that doesn't dominate, but rather complements the look of any reception, lobby, collaborative or gathering area.

Itoki Design

A cantilevered nesting chair is multi-functional for training, meeting, and guests. **LX chair** is unique with legs that emerge from a central position below the seat. This offers the more upscale look and appeal of a task chair.

JANUS et Cie

- The **Amari Three-Seat Sofa** combines bold, modern lines and an ergonomically designed seating element to form and artfully modern shape.

- The sculptural **Amari High Back Lounge Chair** combines an artfully modern shape with our "Generation-Next" JANUSfiber, hand-woven by skilled artisans using traditional weaving techniques for an elevated level of elegance, strength and durability.
- Like its city's namesake, **Milan** draws from elegant precedents with a dash of modernity. True to this spirit, the collection reflects precise line, proportion and scale.
- **The See! Collection**, designed by Michael Vanderbyl, is characterized by artfully simple contours and features a mix of versatile modular pieces that can be combined in countless configurations to fit the space and nature of any contract environment.

•
-over-

- The innovative and generously-proportioned **Triad** combines a Y-shaped silhouette with our "Generation-Next" JANUSfiber.
- JANUS et Cie introduces **Nishiki**, a collection of casual lounge furniture that marries elegant sculptural form with simple practicality and comfort.
- Inspired by the warm spirit and architecture of the Mediterranean, **the Quinta Teak and Woven armchair** is available in khaki and bronze, two rich finishes developed to create indoor and outdoor spaces as elegant as they are functional.

Loewenstein

Designed by Marcello Ziliani, **Orb** was designed to capture attention. The signature cast aluminum

serpentine base and smooth flowing lines lands Orb on that fine line between art and furniture.

It offers a one-piece chrome wire sled base for stack-ability and an optional molded cushion for enhanced comfort.

LumiSource LLC

- Shaped like a glove and brightly colored, the **Mitt Chair®**, is ideal for kids, teens, and adults who want to bring back a hint of youth to their décor. The chair is upholstered with a plush, easy-to-clean fabric. Available in regular and mini sizes along with a vibrating option.
- A fun addition to any room, the **Puzzotto®** is a multi-functional upholstered ottoman. Fit several puzzle-pieces together to make a coffee table, then separate them for extra seating when friends come to visit.
- LumiSource LLC also proudly introduces the **Saucer Chair**. These colorful plush chairs add a modern flair to casual seating. Great for your teen or dorm room! It boasts comfortable padding with plush upholstery over sturdy frame.

Sparkeology

- The **Manny** line of comfortable upholstered seating has clean metal legs that provide style, stability and durability, while our signature metal trim along its base protects the upholstered edge from wear. In response to rising demand, the large square and round Manny offer optional power hubs, adding a practical function to the center point of any sitting, lounge, or work area.
- The strong, clean lines of **Sly's** molded seat complement its thin, elegant sled base producing a seat with undeniable style. This practically indestructible chair offers classic modern design at an affordable price. For extra comfort, specify the upholstered version

with thick foam backing wrapped in leather-like vinyl offered in a variety of crowd-pleasing colors.

- Featuring wooden shelf-top arms and an open-leg design, **Sofia** includes metal trim at the base to keep her upholstery protected from shoes and vacuums.
- Introducing, **The Cupcake**—big on style but small on floor space, this charming pedestal stool is destined to become the most sought-after spot in any room. The comfortably upholstered seat is centered on an extremely durable trumpet-shaped metal pedestal that's built for years of enjoyment.

-over-

OFFICE SEATING:

Allseating

- Like the human body, the **Ayr** chair is a series of intersecting lines and curves in a delicate balance. The end result is a seating solution with decreased pressure points and increased comfort that complements today's offices and educational settings.
- **MultiNestor** is a chair designed to blend into the existing Allseating MultiFlex and MultiStack family, enhancing its application to the educational market and shrinking workspaces. The unique nesting solution reduces the drain on valuable space.
- **Tuck** is a versatile, high-density stacking chair that provides a comfortable seating solution in many environments. Whether it is used in a collaborative setting, as a cafeteria chair, or in an auditorium it can easily be "tucked" away when not in use.

Anji Mountain Bamboo Chairmat & Rug Co.

This **Bamboo Office Chairmat** is more durable than a plastic mat and adds a charming organic touch to any area. The Deluxe Roll-Up model offers outstanding durability and is perfect for both Berber/Loop carpets (up to 3/8", with carpet pad) and hard floors.

BioFit Engineered Products

SwingSeat attaches to any wall or vertical surface and swings out of the way when not in use, yet is handy at any workstation or production line, and features adjustable-height seat and choice of hundreds of seat and back combination styles, or a simple stool, and choice of vinyl, ESD or upholstery.

Davis

- **Gingko** is a delicate, yet durable bent plywood conference chair with an organic aesthetic that is both instantly recognizable and utterly unforgettable.
- With its petite footprint, slender base designs, and injection molded foam bucket seat, **Sketch** brings comfort and elegance wherever it goes. This stylish pull up conference chair features a delicate stitch across the center of the front and back, providing visual interest and the opportunity to upholster it in an endless array of combinations.
- Designed and developed exclusively for Davis, **Sola** boasts a distinctive, sculptured form marked by dramatic use of angles and slender, uninterrupted lines. The back of this one-of-a-kind executive and conference chair is available fully upholstered or in a trio of wood veneers, making it startlingly beautiful from both sides.

IMARC S.p.A.

Introducing the new **980 Syncro Range**. A new and complete range of Syncro Tilt controls, all with the special feature of rapid weight adjustment in only a quarter turn of the side knob to adjust from 50 to 120Kg., five locking positions, sleek and low profile, anti-shock back release.

ITOKI DESIGN

- **Pria**, an affordable, nesting multi-purpose chair that combines an efficient tubular frame with great comfort. The upholstered seat flips up to make room for the next with a pitch of only 4.5". The frame's distinctive profile defines a comfortable form for the mesh back.
- over-
- Lightweight and compact, Pria goes quickly and efficiently wherever it's needed around the office.
- **KI** - Itoki offers fresh, modern forms for virtually any application. Featuring a unique table design and a visually compelling chair, the Itoki collection balances the performance requirements of the traditional office environment with the visual cues found within residential design.

LEDA

Introducing, **Fusion Seating**, attractive and comfortable guest seating now available from Leda. All seating is available with either fabric or leather upholstery, including Customer's Own Material. Silver finish is an option on selected frames.

Miller at Work

The **Spring and Spark** chairs feature polished aluminum accents, mesh and airmesh fabric seat options and over 28 special order fabrics, mesh and frame colors.

Nienkämper

The **Omada Conference Chair** is stylish, comfortable and affordable - Streamlined base design with a soft comfortable arm available fixed or fully adjustable. It comes fully upholstered in mesh seat and back with 30 colors to choose from. This chair is ideal for private offices, conference or training rooms.

Sidiz, Inc.

EGA Chair, the new office chair by Claudio Bellini, is a simple office chair that concentrates on the essentials. Through effective combination of materials and shapes, EGA Chair provides the ultimate comfort.

Tayco

- The **Lily Lite** sets new standards in task seating with its breathable mesh back, simple mechanism, and elegant chrome arms.
- The **Tokyo Chair** makes for a sophisticated choice for any boardroom, contemporary meeting area, or executive office with its unsurpassed levels of comfort. The Tokyo Chair has beautiful stitching details, CMHR seat and back foams, sprung seat comfort, chrome cast aluminum arms and offers optional 4-star bases.

Vitra, Inc.

- **ID Chair Concept** is designed to meet a variety of office needs. Based on a technically innovative platform-mechanism, the system provides over 8,000 options to suit the individual user while the chairs' basic look & construction remain the same.
- **Alcove Work** is a sofa workstation for concentrated individual work. Its extra-high backrest and sides shields users from both visual and acoustic stimuli. Ideally suited for the open office, it forms a room within a room with a table and storage.

-over-

OTHER/MISCELLANEOUS:

3Form

- With **LineUp**, a new striped pattern in the 100 Percent® collection, 3form increases sustainable product options for designers. These high-design architectural panels have low environmental impact. Each sheet is made from hundreds of post-consumer recycled bottles.
- With a goal of offering designers easier access to products and a smoother specification process, 3form is expanding its Ready to Go offerings with the debut of **Inset Lightbox**, Slide 01 Curve, Ripple Wall and Hidden Point hardware.

Acoustictrade

Sound-enhancing form meets aesthetic function: acoustictrade announces **Chameleon**, an interchangeable acoustic design medium for any image,* in any size, for any space.

APCO Signs

The Design Studio is an online tool allowing designers to create a limitless range of sign designs and concepts 24/7, with automatic generation of basic signtype drawings and specifications. With the ability to incorporate the many decorative shapes and textures of APCO's Elements2 line, the Design Studio offers the benefits of the most comprehensive modular sign systems available with the creative freedom and flexibility of completely custom products.

APCO Signs

APCO's new **InfoLock system** makes certain patient information signage must clearly communicate with no ambiguity and it must do so in a secure manner, ensuring that only designated hospital personnel are controlling the messages.

Beloxx GmbH & Co. KG

- **BeCode Air** is ideally suited wherever RFID systems are already in use or planned, since the decision to use transponders has already been taken there. This makes the operating concept even simpler. The freely rotating BeCode only has to be 'shown the card' (or matching transponder) and it can already be operated. It doesn't get any simpler.
- Introducing The **BeCode evo**, an electronic keyless locking system for furniture and ideally suited for use in combination with conventional locking systems. The BeCode evo works without keys and transponders.
- The **BeCode evo+** is an electronic keyless locking system for furniture and completely equipped with an integrated cam lock. It is quickly installed and operational immediately. The BeCode evo+ works without keys and transponders.

Bradley Hughes

BRADLEY HUGHES | MODERN OFFICE is the perfect design solution for today's creative company. The Mid-Century modern inspired desks, case pieces, seating and conference tables all incorporate a unique blend of style, functionality and durability suitable for the fast pace office and a progressive corporate image. Products can be customized with optional wire management features or for the wireless+paperless office. All MODERN OFFICE products are hand-crafted in the USA from versatile materials and finishes such as hand-forged iron, concrete, tempered glass and fine woods.

-over-

Cristacurva

Privaswitch is a privacy glass product. The glass switches from transparent to opaque with the flip of a switch. Privaswitch has additional features that have never been offered to the market.

EMD Chemicals, Inc, An Affiliate of Merck KGaA

The **Colorstream pigment line** adds a color changing, sparkling style for maximum effect. For over fifty years our specialty pigments have provided unique pearl luster, color travel, glitter and multicolor effects to the world.

Follett Corporation

Follett's new **7 Series** countertop ice and water dispensers can produce over 100 pounds a day and store 7 pounds yet fit on a counter under an 18" wall-mounted cabinet, dispense ice hands-free for improved sanitation, and do not require a drain.

Gross Stabil Corporation

Delta-Brake, with its modern design will assure clear ease of use. It is completing the MOVE model range in a harmonic way, adding elegance to the mobility in office furniture applications. Delta-Brake is easy and safe to lock/release, even with delicate leather or open toe shoes.

Guardian Industries

With the launch of **Guardian InGlass®**, Guardian is providing designers and architects a single entre point into the world of glass, to be used at every stage of the design-build process. Designers and architects will be able to search and compare a number of glass options, view samples and product descriptions, select sizes and custom order their glass for any project.

Jardin de Ville

Terrace Concept modular Pavilions transform any outdoor area into a multifaceted, multi seasonal space, creating an unforgettable environment customers will flock to. Perfect for private dining, trendy lounge, intimate spa, or unique reception area.

Joel Berman Glass Studios

Originally developed for Tiffany & Co.'s flagship store in New York, Bling is a textured mirrored tile made of Joel Berman Glass Studios' textured glass Nuv'eau laminated face-down to a layer of ¼" mirror. Bling's rippling, caused by the texture of the glass and the refraction of the light from each tile, provides a theatrical sparkling effect.

Kelly International Corp.

Their new **Premium Plus Arm** is a glass cylinder arm, which provides finger-tip adjusts at any position.

Montel, Inc.

Introducing **SafeAisle™**, Montel's newest high-density powered mobile storage system that sets new standards in safety, reliability, productivity and user-friendliness with its state-of-the-art compact system. *NanaWall Systems, Inc.*

-over-

NanaWall Systems, the leader in opening glass wall technology, introduces the first folding door system in the U.S. to feature custom-crafted frames of Lamboo® laminated bamboo. The Energy Star-Certified NanaWall folding door system incorporates the most ecologically responsible wood-alternative material on the market today.

Robert A.M. Stern Architects, LLP

The new **ROBERT A.M. STERN COLLECTION for BENDHEIM**, designed by world-renowned Robert A.M. Stern Architects, offers several sophisticated, three-dimensional pattern glasses featuring intricate designs etched on both sides of the glass. The Collection is well-suited for partition walls, doors and windows, shower enclosures, and decorative features.

Sedia Systems

Sedia Systems introduces the **E 4000 seating system** designed by Lucci & Orlandini / Lamm to optimize seating capacity in lecture halls, classrooms and training rooms. Featuring an auto uplift seat and either an anti-panic or fixed writing surface, the E 4000 boasts clean, neutral lines and durable construction offering simple, yet sophisticated seating solutions.

Sugatsune America, Inc.

- Shelf support slots are not visible on this new innovative shelf standard **SPW-1820**. With cover strip, even screw holes are hidden from view for clean appearance. **LIN-X** is a hinge for kitchen/bathroom cabinet door with unique link arm technology designed to allow doors to swing out laterally in a small radius. Ideal for tight front space application such as storage cabinets in kitchen, closet, bath and laundry room, etc.
- EZS-ELAN is a revolutionary stay for upward-opening flap doors with combination of "extra light-opening", "multiple-stop" and "soft-closing" features. The stay is easily installed by aligning the bracket with the edge of the cabinet and snapping the door onto the brackets, making it an attractive option for contractors.

Takeform

- **Purify**, a wall-mounted infection control station from Takeform, is a fully configurable unit (hand sanitation, masks, tissues, etc.) with clean lines and finishes, limited only by your

design library. Purify makes it possible to integrate the everessential functionality of a sanitizing station beautifully within the aesthetic design of virtually any space.

- **Nest**, fully customizable wall-mounted magazine, chart and document holders from Takeform, offer an aesthetic solution to organizing reading material in lobbies, waiting areas and offices - in harmony with the architecture and finishes of the interior space. Nest is part of the all new Essentials line, accessories for the wall, designed to complement Fusion, Takeform's "designer signage" for interior spaces.
- **Purify** is a designer sanitizer and an infection control center that belongs in your space. Purify is part of the all new Essentials line, Takeform's accessories for the wall.

Taskair

Taskair is a revolution in delivering conditioned air into commercial space. Taskair is making its American debut this year at NeoCon.

-over-

VanerumStelter

Opti+ is an innovative seating and desking platform that supports balanced seating, movement and interaction for the most inspiring learning environments.

Vitra, Inc.

- **Map** is a universal table program for all situations requiring flexible arrangements and optimum space utilization. The tables are stackable and can be rearranged simply and quickly into different configurations. It is a perfect companion to the Tip Ton chair.
- **Tip Ton** defines a new category of dynamic seating. It offers two sitting positions without any mechanism – a resting and a forward-sitting position. Combining two sitting positions into a non-task chair brings the benefits of dynamic seating into many more environments including schools, libraries and cafeterias, as well home offices and residential settings.

TECHNOLOGY AND TECH SUPPORT:

20-20 Technologies

20-20 Visual Impression is an easy-to-use software for designing and presenting, high-quality, manufacturer-specific, 3D color visualizations of office environments. It is tightly integrated with 20-20 CAP Studio, Giza Studio, and Worksheet, the design and specification software already used by most in the industry.

Configura, Inc.

Configura unveils **Photo Lab in CET Designer®** – extreme photorealism rendering in a single design-and-specification solution. Enables immediate post-rendering processing and changes. Renders multiple images at once.

Connectrac

- Connectrac's new **LP Wireway System** features a lower profile, a sleek removable wireway cap, and lower and wider side ramp components, creating an extremely subtle yet robust cabling solution for any furniture scenario.

- Connectrac's new **V-Series** towers are an economical and flexible solution which combines the sleek new tower components with quick-connect power conduits concealed in the Connectrac cabling pathway at the floor level. These quick-connect power conduits provide for quick installation and also the flexibility to move the towers along the Connectrac system.

MODERNSOLID INDUSTRIAL CO., LTD.

Wireless mobile workstation is designed to easily integrate with emerging technologies and give user the flexibility to use one workstation for numerous applications.

Modular Millwork – IOPC

Modular Millwork's announces its latest innovation to its family of sustainable workroom solutions – **APX Lockers**. Automated Parcel Exchange (APX) Lockers by IOPC Modular Millwork provide unprecedented efficiency and chain-of custody accountability for time sensitive, high-value deliverables.

-over-

Nurture by Steelcase

Pocket™ "Tablet" is Nurture's new mobile workstation specifically designed to support the active work of healthcare professionals by accommodating both the demands of the task at hand as well as emerging portable tablet technology like the iPad, Xoom and Playbook.

Oppmetrix

Oppmatch is a patent pending, federal contract matching service. It is revolutionary technology for any company wishing to compete for government contracts. This year sales are expected to exceed \$585 million in furniture.

Smith System

The I~O™ Post brings power and data connectivity away from the wall and up to students, making technology use in learning environments more convenient and accessible. Designed for multiple users, the I~O Post features eight power outlets and eight network jacks that can be supplied from a source on the floor or ceiling through a six-foot cable.

Vitra, Inc.

REV™, in partnership with Vitra, introduces AirShare™, a wireless collaboration appliance that automatically allows teams to quickly and wirelessly share ideas between each other's devices, including laptops, tablets, and mobile telephones.

TEXTILES AND FABRICS:

Architex

Architex introduces the **White City Collection**, inspired by the Bauhaus architecture of Tel Aviv, Israel. Seven patterns in 48 vibrant colorways are woven in 100% Trevira CS hybrid construction. This multi-purpose construction has limitless applications giving the designer freedom to use in any venue.

Camira Fabrics

- **Adrenalin** is stunning new fabric designed for Camira by award winning British designer David Fox. It is a convergence of graceful, swirling lines and coordinates with the ultra sophisticated Adrenalin Satin in a luxurious finish reminiscent of gentleman's suiting.
- **Nuna** is an exciting collaboration between textile innovator Camira and British designer David Fox to create a beautiful pattern inspired by jagged mountain peaks in stepped inclines. There is a corresponding pure new wool coordinate called Nuna Mélange.

CF Stinson

Presented by CF Stinson, **The Lumina Collection** is Patty Madden's first collection of woven textiles. The collection is based on the play of light and features bright, metallic yarns. The five styles in the collection – Aura, Spark, Lucent, Radiance and Glimmer – reflect Patty Madden's signature amorphous, fluid geometric patterning.

Garrett Leather

Beautiful hand-buffed **Native** is Italian leather with a mottled appearance and matte surface.

-over-

Native is recommended for all upholstery applications, as it will improve with age and develop a rich patina with use.

HBF Textiles

- Suitable for both seating and upholstered walls, **Off & On**, has a circular design element repeated in bands of off and on commands that allows the fabric to come to life. Off & On is 54% post-consumer recycled polyester and can be specified with an environmental finish such as GreenShield or Nano-Tex for extreme performance applications.
- **Flywheel** provides an energetic, larger-scale graphic, with rotating spokes that suggests a hand-sewn stitched line. Flywheel is 100% post consumer recycled polyester, including a GreenShield stain repellent finish and has over 100,000 double rubs on the Wyzenbeek test.
- **Beveled Line** is a multi-hued design that echoes mid-century modern styling in hues that place it in today's vibrant palette. Beveled Line uses post-consumer recycled polyester and has no added chemical finishing.

Kravet Contract

Kravet Contract is pleased to add a selection of **Crypton fabrics** to its **Guaranteed in Stock program**. Available in bright modern colors and contemporary patterns, these eco-friendly performance fabrics now come with in stock and delivery guarantees to make ordering easier than ever.

LDI Corporation

- The new **INK-GARD** collection by LDI offers state-of-art resistance against staining. This PVC-Free product comes in 18 colors and is engineered for the healthcare, education, hospitality and corporate markets.
- The **EnviroLeather Montana** collection is PVC-Free Synthetic leather that offers a rich gloss finish with a traditional, timeless color palette. The EnviroLeather collections are best known for their environmental and sustainable design. LDI Corporation offers

EnviroLeather in a vast array of colors for virtually any application in healthcare, education, hospitality and corporate environments.

Pallas Textiles

- **Science Matters**, Pallas Textiles' new product, is intricate and awe inspiring. Seemingly simple at first glance, biological structures reveal a beautiful complexity up close. Science Matters was inspired by the juxtaposition between the geometry and linearity of those structures with contrasting organic variations.
- Introducing, **Carpe Diem by Pallas® Textiles**. The digital age has enabled near instantaneous exchange of information and ideas, exponentially increasing the pace of our lives. So, seize the day. Be in the moment – whether it's a simple whirl on an amusement park ride or experiencing the captivating allure of a different culture.

Paul Brayton Designs

The initial launch of the **Luxury Collection** contains three patterns: Majestic, Imperial and -over-

Chivalry. All three are constructed of eco-friendly yarns, finished and engineered to withstand high traffic contract use.

WALLS AND WALL COVERINGS:

3Form

- With interlayer designs that feature textured surfaces mirroring icy water, ripples and movement; and organic elements that embrace water inspirations and soft structure trends, 3form introduces its new collections of **Varia Ecoresin® panels**.
- 3form's **Ripple Wall**, a new variation on the Wave Wall, is a dual curved tile system that uses narrow panels to create an undulating pattern on the wall. The woven structure offers designers a new way to create a sense of depth with a range of colors and finishes.
- With the addition of **Elevate and Sails**, 3form has found yet another way for Varia Ecoresin® to break boundaries and create sculptural concepts. New three-dimensional designs provide designers with greater flexibility in creating intimate or expansive features.
- Introducing **Timber**, a new interlayer composed of parallel strips of wood encapsulated in 3form's signature Varia Ecoresin®, providing designers with the aesthetic warmth of wood for a range of applications.

Crossville, Inc.

- **Color by Numbers**, a ceramic wall tile program containing 15% recycled content, features 96 complementary Aura paint colors from Benjamin Moore plus floor tile from Crossville's own Color Blox and Color Blox EC collections.
- **Mixology**, a new metal wall tile line that's been painstakingly crafted by Crossville artisans to replicate cast metal sculptural pieces, contains a minimum of 50% certified post-consumer content

Dreamwalls

Dreamwalls Color Glass by Gardner Glass Products has introduced a line of versatile glass tiles. **Dreamwalls Color Glass tiles** join the other Dreamwalls products including Dreamwalls Color Glass, Dreamwalls Marble Glass and Dreamwalls Acid Etched Glass.

General Glass International

General Glass International is proud to introduce **The Kaleidoscope Collection**. Using Alice® direct-to-glass printing technology this assortment of seven patterns allows for kaleidoscopic versatility.

LG Hausys

LG Hausys introduces its new line of Wallcoverings, created in partnership with internationally famous Anya Larkin. **The Vinyl Laminated Decorated Wallcoverings**, only available through LG Hausys, are designed for commercial applications. Available in 74 different patterns, they vary in looks from animal print to origami-inspired crinkles.

-over-

Murals Your Way

SmartStick™ is a revolutionary, reusable, wrinkle resistant wall mural product that can be reinstalled hundreds of times without losing its adhering qualities. It's great for permanent or quick change décor, adheres to nearly any surface and goes up easily.

NanaWall Systems, Inc.

- **The NanaWall® Kitchen Transition** is a custom window-door folding glass wall system that turns one room into two rooms and is a stunning alternative to building both an outdoor kitchen and an indoor kitchen.
- **The NanaGlass® SL25** is a frameless opening glass wall system installed on the exterior of balconies and patios to create a pleasant living area sheltered from the elements. With no vertical stiles, the NanaGlass system provides uninterrupted views and natural light.

Sherwin-Williams

Sherwin-Williams popular zero-VOC, low-odor **Harmony coating** now has an enhanced formula that delivers better application, hide and durability, and features odor-reducing properties. This translates to a product that not only meets or exceeds environmental regulations, but also helps to reduce unpleasant odors for a fresher, cleaner smell, day after day.

Terrazzo & Marble Supply

Introducing the **Vermont Danby Marble Collection**, a line of white marbles suitable for kitchen countertops or flooring that is quarried in Vermont.

TMC Furniture, Inc.

Surface flourish is an integral part of TMC's furniture. Using their acclaimed portfolio of cut-outs and inlays, TMC Furniture is launching an innovative product at NeoCon this year with Ceiling and Wall applications. The everlasting beauty of wood provides warmth and sophistication in any interior.

Vahallan Papers

Vahallan Papers has taken taken their signature hand painted designs to a non-woven substrate. One of a kind design for both commercial and residential applications.

NeoCon® is a registered trademark of MMPI.

About MMPI

MMPI is the world's leading owner and operator of showroom buildings and trade show facilities, bringing buyers and sellers together in more than 300 market events, trade and consumer shows and conferences each year.

MMPI manages The Merchandise Mart and 350 West Mart Center in Chicago; the Architects & Designers Building, 7 W New York, and Piers 92/94 in New York City; the Boston Design Center in Boston; the L.A. Mart in Los Angeles; the Washington Design Center in Washington DC; and Cleveland Medical Mart & Convention Center in Cleveland.

-over-
